Ormstown, May 14, 2020.

Dear Parents / Guardians and Students,

As we move forward, our School Team is planning for the next 5 weeks. The Ministry has asked that high schools consolidate learning from Terms 1 and 2, identify Essential Learnings to be taught until the end of the school year for Core Subjects (English, French, Math, Social Studies and Science) and propose a plan to help students meet with success. Other grade 10 and 11 subjects required for credits can also be part of this effort towards graduation.

Students, this is a golden opportunity to attempt to increase your marks and pass all your subjects. Please engage with your teachers and make an effort to bridge the gap.

As of May 19, 2020, students should continue to check their NFSB emails daily and be in contact with their teachers to establish a game plan.

- Last day of school is June 23, 2020.
- Term 3 marks will be issued before July 10, 2020.
- Please note that Summer School will not be offered this year.

Students involvement and participation with their teachers is paramount for the gathering of the foundations necessary for starting the upcoming school year on a strong basis.

Please refer to the proposed schedule attached.

Teachers of English, French, Math, Social Studies and Science will be offering weekly online teaching in their subject. They will be offering office hours which will be used to check in with students, answer emails, meet within their departments to align curriculum, as well as one on one coaching if necessary. Moreover, valuable information will be kept up to date on their class websites, which can be found on our school website: cvrhighschool.com

Please note that our Guidance Counsellor Spiro Angelopoulos remains available for students: sangelopoulos@nfsb.qc.ca

Our Mediation Station personnel, Jenny and Randy, can be reached at jrember@nfsb.qc.ca cvrms@nfsb.qc.ca

Dear Secondary 5 students, the CVR Team is saddened by the Covid19 situation. Our spring graduation has been postponed until we can safely conduct such an event in a safe manner. Despite these hurdles and interruptions, we are actively planning the 2020 Graduation. The Educational Foundation is pursuing their mandate and meeting regularly to establish the potential recipients of the various prizes, bursaries and scholarships being traditionally offered at Graduation. We will keep you updated as things evolve.

Should students require additional support, please feel free to contact us.

Stay safe.

Sincerely,

Brigitte Barrette
Principal
